

## 6 Questions to Ask A Web Designer

---

### On Staying Current With Support

1. "Websites can be outpaced by web browsers (Internet Explorer, Firefox, Google Chrome, Opera and Safari). If that happens to my site, what will you do to fix it and keep me looking good?"
2. "My services and routines change from time to time. How do you accommodate changes to my site so that the information is a true reflection of my business?"
3. "How much do you charge for website updates?"

### On Exposure

4. "Will you submit my website to search engines for indexing (listing)? If so, how often?"
5. "Should I use social networks like Facebook, Google+ or LinkedIn to promote my business and website? If so, how?"
6. "Will my website display well on smart phone screens?"
